Zipporah Kwamboka

Software Engineer

+254 757142737 | zippyk80@gmail.com | LinkedIn| GitHub |Portfolio| Nairobi, Kenya

SUMMARY

Enthusiastic **full-stack developer** with hands-on experience building web applications using **Python, JavaScript, React, Next.js, Node.js, C#, .NET, and Flask**. Skilled in designing scalable front-end interfaces, developing robust back-end systems, and integrating databases. Currently interning as a software developer, contributing to enterprise applications in an Agile team environment. Passionate about using technology to solve real-world problems, with a unique background in **health and wellness tech**.

EXPERIENCE

Software Developer Intern | DigiSoft Consulting Services Limited

Present | Remote

- Designed and implemented backend logic using **C#, .NET, and PostgreSQL**, enabling scalable workflows.
- Built and optimized **REST APIs** for business applications, improving system performance.
- Collaborated in an **Agile team (Scrum, JIRA)** with frontend engineers, QA, and product managers.
- Applied **Docker and Git workflows** for version control and containerized deployments.
- Conducted **debugging, unit testing, and performance optimization**, ensuring system reliability.
- Gained exposure to **message queues (RabbitMQ)** and **secure API development practices**.

Key Achievement

- Successfully integrated **Pesapal Payment API** into the enterprise system, enabling seamless digital transactions and improving user adoption.
- Successfully built a system that manages notifications.

Clinical Nutritionist | Kenyatta National Hospital

Mar 2021 – Dec 2021 | Nairobi, Kenya

- Conducted patient nutrition assessments and implemented tailored healthcare plans.
- Collaborated in specialized clinics (TB, HIV/AIDS, diabetes, renal) to support recovery.
- Developed protocols and educational resources for nutrition services.

EDUCATION

- **Software Engineering Bootcamp –** Moringa School; September 2024 to July 2025.
- **AI Access Program for Software Development –** Moringa School; August 2025 to September 2025.
- **Bachelor of Science in Food Nutrition and Dietetics -** South Eastern Kenya University; September 2016 to December 2020- (Second Class Honors Upper Division)
- **Maternal, Infant and Young Child Nutrition (MIYCN) Course –** Kenyatta National Hospital; October 2021.

SKILLS

Technical Skills:

- **Programming Languages:** Python, JavaScript, Typescript, HTML, CSS, C#
- **Frontend:** React, Next.js, Bootstrap, Tailwind
- **Backend:** Node.js, Express.js, Flask, .NET
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase
- **Tools & Methods:** Git, GitHub, REST APIs, Docker

PROJECTS

FoodCourt Web App – Demo
Next.js, Flask, PostgreSQL

- Full-stack application to streamline food ordering in mall food courts, allowing customers to browse menus, place orders, and reserve tables.
- Designed REST APIs and integrated PostgreSQL for data persistence.

Nutrifit Supplements Store App – Demo
React, Bootstrap, Flask, SQLAlchemy

- Modern e-commerce platform for purchasing and selling health supplements.
- Implemented CRUD operations with Flask backend and SQLAlchemy ORM.

ToDoApp – Demo
Next.js, TypeScript, Tailwind CSS, shadcn/ui, Node.js, Express, MongoDB

- A todo app where users can register, log in, add tasks, mark tasks complete, and delete tasks.

Nutrifit BMI & Nutrition App – Demo
HTML, CSS, JavaScript

- Single Page Application that calculates BMI and provides tailored nutrition advice and meal plans.
- Applied responsive design principles for mobile-friendly usability.

VOLUNTEER EXPERIENCE

- **Kenyatta National Hospital; 27th June- 10th July 2019**
  - Free fistula medical camp
